

# Traditional Wreath

Christmas just isn't Christmas without a wreath on the door, and our Traditional Wreath is a grand one. In our pursuit for a Christmas wreath that beautifies the home, the office, and even the barn door, we perfected a breath-taking forest green arrangement with handsome accents of color. Each handcrafted Christmas wreath has all the natural beauty of the great outdoors, and a fresh holiday scent. It measures 2 feet across, and its classic circular shape is formed of freshly harvested Douglas Fir, Incense Cedar and Balsam Fir branch tips. These are fastened to a wire frame and decorated with natural pine cones and a large hand-made plush red velvet bow (waterproof). The evergreens are wonderfully aromatic and indoors will fill an entire room with the fresh scent of the Northwoods.

# Fraser Fir Tree (fresh cut)

Not enough room for a full-size Christmas Tree? Our 3 to 4 foot Fraser Fir is a perfect solution. Fraser Firs make splendid Christmas Trees. They have a uniform conical shape. The branches are spaced to allow room for decorations. The needles are dark green on top and a lighter silver green on the bottom, and the two-color effect is attractive. Frasers also hold their needles longer than other firs when cut. Our trees are field grown and 3 to 4 feet tall so they can sit on the floor or on a table. They are harvested to order and shipped to arrive fresh and fragrant, ready to fill your home with holiday cheer.
