

Paperwhites

Grows and Blooms Indoors!

Paperwhites are well known for their easy care and profuse blooms. These flowering plants are wonderful for livening up the home or office during the fall and winter months. Paperwhites can be planted in soil, or grown simply and elegantly in nothing more than *water!* That's right, just add water and in a few short weeks your customers will be enjoying a delightful blooming garden in their office! Available in packages of one or three premium bulbs complete with a custom created four-color label and planting instructions.
